

## HOW TO CURE BLOOD POISON

Contagious Blood Poison is a virulent germ, and like most other bacterial organisms, is very difficult to kill or destroy within the system. It would therefore be useless to endeavor to cure the disease with some strong medicine intended to destroy the disease blood cells and virus. The proper way—the only way—is to REMOVE the germs and poisons from the blood by purifying the circulation. Thousands have cured themselves of this powerful disease by the use of S. S. S., the greatest of all vegetable blood purifiers. This is a medicine of unquestioned ability in the treatment of Contagious Blood Poison. For more than forty years it has been prepared and sold as a cure for this trouble, and not only its efficacy, but the fact that it does not contain a particle of mineral, or other harmful drug, should be an inducement to any Contagious Blood Poison sufferer to begin its use. S. S. S. goes right down into the circulation, and removes every trace of the destructive virus. It heals all sores, stops falling hair, and by cleansing and enriching the blood, soon clears the body of every symptom. Home Treatment book and any medical advice free. S. S. S. is sold at drug stores.

deputy county clerk, Potter; H. H. Hardin, district clerk, Potter; W. W. Hamilton, deputy, Potter; R. A. Underwood, county attorney, Potter; O. H. Brown, Yeung, and John F. Speed, deputy, Potter.

Frank E. Buckingham, secretary-treasurer for the newly formed organization, is receiving many inquiries, and a few applicants, even in advance of the regular membership blanks. He states that several of the sheriffs and collectors within the jurisdiction have ordered blanks to their address just as soon as these shall have been prepared.

Interest in the association is astonishingly good, and it is the stated belief that every man within the jurisdiction will affiliate within a short time following the furnishing of the required blanks by the secretary. The matter in the hands of the printer, and no time is being lost getting every preliminary detail worked out.

President Burwell of the organization has also had inquiries from eligible in different portions of the jurisdiction. He states that the matter of proper entertainment of the next

annual meeting will receive attention in ample time, and that nothing on that occasion will be left undone, that could contribute in any way to the pleasure of the hundreds of visitors expected on that occasion.

This organization through its officers, leaves no opportunity unnoticed that can emphasize the fact that this association is expecting to work hand in hand with the state affiliation. There is to be no friction, and all peace officers within the jurisdiction, if properly recommended are eligible to come in and take part in the movement that has as its object the facilitating of work engaging retention of the collectors and sheriffs as well.

While committees will be appointed from the Panhandle Association, these will be expected to work with and through the committees appointed by the state organization. The members of the new association are practically all identified with the state organization and in view of this fact it may readily be seen that the interests are in common and that there will be no friction.

## ROBERTSON JOINS STATE ACCOUNTANTS

Mr. and Mrs. H. V. Robertson have just returned from Dallas, where they have been attending the annual meeting and banquet of the Texas State Society of Public Accountants, Amarillo being the smallest city in Texas represented in the society. The Texas Society has now been admitted to the American Association, and their representative who delivered the address of welcome at the Texas meeting, J. B. Galsbeek of Denver, stopped over and spent Monday in our city with Mr. Robertson.

Mr. Galsbeek is a man of much prominence in the profession of accounting. Besides being a practicing certified public accountant of Denver, he has the distinct honor of being dean of the University of Denver's School of Finance, Commerce and Accounting, is the first man west of Chicago to be elected to an executive office in the American Association of Public Accountants, and is an author of some prominence on accounting subjects. Mr. Robertson was indeed honored by having the privilege of entertaining this gentleman in our city. Mr. Galsbeek while in Amarillo met many of the prominent business men, and expressed himself as being much pleased with the size and prosperous condition and appearance of our city.

According to the first article of the charter of the Texas State Society of Public Accountants this association is formed for the purpose of associating into a society for the mutual benefit and advantage of capable public accountants, and through such association to elevate the profession of accounting as a whole, and to promote the efficiency and usefulness of members of such society by compelling the observance of strict rules of conduct as a condition of membership.

An accountant is no longer considered as a "bookkeeper out of a job," but on the contrary it is a recognized fact that no institution of any size, no matter what the business may be, can be successful without proper accounting methods, and without proper statements each month which will disclose the exact condition of such business. It therefore behooves us as one of the greatest commercial states in the Union to follow up the example set by many of the other states, and support the Public Accountant in his great work by giving him the advantage of proper legislation, and by creating in our state the certified public accountant who must like the doctor and the lawyer, hold a state certificate.

Other cities represented in the Texas Society and the National Association besides Amarillo are Beaumont, Galveston, San Antonio, Austin, El Paso, Dallas and Fort Worth.

## TWENTY FIVE YEARS AS MINISTER ENDED

Rev. R. F. Jenkins, pastor of the First Baptist church, has just celebrated the close of his twenty-fifth year continuously in the ministry. During this time he has been pastor of ten churches, has erected seven church buildings, and preached in one hundred and ten cities and towns in Texas.

This list does not include country appointments, and points outside of the state. When asked by a representative of the Daily News, as to his impression of the work from the standpoint of the young man, and if he had his life over, whether or not he would enter the ministry, Rev. Jenkins smilingly replied:

"I would assuredly enter the ministry if I had my life over, and would advise every young man who has sufficient religion and courage, coupled with a desire to enter the work, to do so. I can remark with the Psalmist: 'The lines are fallen unto me in pleasant places; yea, I have a goodly heritage.'"

Rev. Jenkins has now been pastor of the local church for a number of years, and although he has engaged no outside evangelist for revival efforts his congregation has gone steadily upward in numbers until it is one of the greatest in this portion of the state with a building that is second to none between Fort Worth and Denver. While this is true, he is unostentatious, and the facts as shown in the foregoing were gathered from him as replies to direct questions.

It is probable that no man has ever had a stronger hold upon the hearts of his people in Amarillo, than has Rev. Jenkins. He is popular with all regardless of church affiliation.

## MISS GREATHOUSE GOES TO NEW MEXICO FOR HEALTH.

Miss Dorothy Greathouse has been compelled to give up her classes in Amarillo and leave for San Marcial, New Mexico, where she will spend the winter with a sister. The young woman has been here for some time, and had engaged classes for the winter. Upon advice of her physician she left, believing that the change would be beneficial.

## CHOPPERS MEET TO FORM SECOND CAMP

Quite a number of Woodmen and prospective members of that organization met last night at the Grand opera house hall, and took steps looking to a second organization of the popular insurance fraternity in Amarillo. This matter has been under consideration for the past several months, and a number of choppers are expressing gladness that two camps of the great organization are to have Amarillo as their home.

In this way with two organizations an increased interest will be taken and the officers and members will use their influence to get good material worked into choppers of the first rank. Amarillo has attracted much attention by reason of the number of Woodmen she has developed, and it is stated by those in interest, that the end has not yet been reached.
